

March 2019

DECLARATION

SMISOL® Flex is a copper tube produced by Serravalle Copper Tubes S.r.l. according with:

- **EN 1057** Copper and copper alloys - Seamless, round copper tubes for water and gas in sanitary and heating application

SMISOL® Flex is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP) and is pre-insulated during production with polyethylene foam conforming to Reg. CEE/EU 2037/2000.

Due to these characteristics **SMISOL® Flex** is suitable for the following applications:

- Drinking water distribution
- Transport of liquid and gaseous fuels
- Heating applications

(In compliance with local applicable regulations)

During manufacture, the tubes are subjected to a treatment for passivation and stabilization of the internal walls, thus assuring absolute compliance to the potability parameters required by European legislation for transported drinking water (European Directive 98/83).
