## COMO COMPACT 23 PLUS

A central heating pellet furnace of reasonable dimensions and simple design, suitable for positioning in basements as well as residential rooms. Leading technology. High-quality level product. Modern design. See for your self why our products are special.

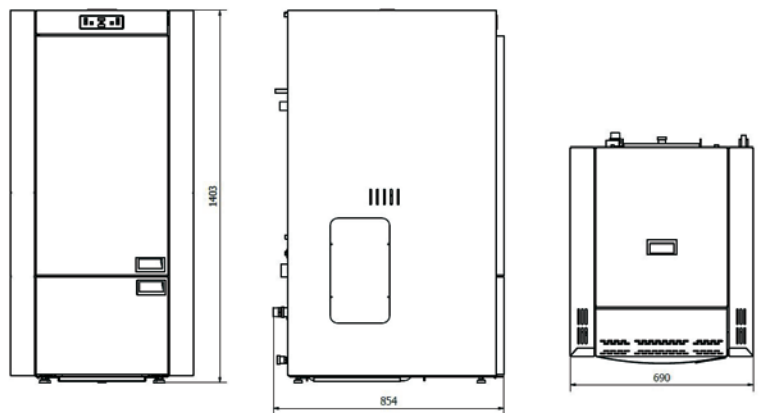

## Advantages

### Standards

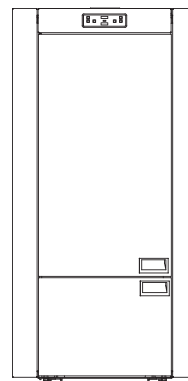

- Thermal isolation of the burn pot door with vermiculite as well as the additional thermal isolation of the boiler increases the efficiency level and the power transferred to the water.
- The components necessary for the functioning of the heating system are built into the product during production.
- Built-in safety thermostats prevent the overheating of water in the boiler.
- Cleaning systems make furnace maintenance even easier and enable reliable functioning.
- Weekly work programming for the furnace at 5 power levels.
- Options for sanitary water heating (in the boiler) and connection to the floor heating system.
- Remote control through android and IOS applications (optional).

technical specifications	COMO COMPACT 23 PLUS
power	23 kW
dimensions (WxDxH)	690 x 854 x 1403 mm
diameter of the flue extension	■ 80 mm
power of radiant heating	-
power transferred to water	23 kW
quantity of water in the boiler	35,5 l
min/max pellet consumption	1,48 / 5,5 kg/h
max operating time per full tank	90 h
pellet tank capacity	228 l / 140 kg
heating volume	345 - 575 m <sup>3</sup>
heating area	138 - 230 m <sup>2</sup>
net/gross weight	298 / 313 kg
efficiency	90 %

smoke exhaust: □ - on top, ■ - in the back, ▣ - laterally
